A PLACE FOR EVERYTHING YOU LOVE

Timeless storage in white.

One of elfa®'s well-known features are its white, wire system products – a functional design that is not governed by fashions and trends. The incredible number of ways the system products can be varied and extended has made this concept something of a Swedish storage

classic. Our wire drawers and shelves allow air to circulate freely and keep clothes, linen and textiles looking and feeling fresh. The drawers are also easy to lift out and carry – to the laundry room, for example.

Sophisticated platinum system products.

Our new shelving system has been extended to include practical and stylish pull-out drawers and trouser hangers.

Platinum wire system products give your storage space an attractive and modern look and, of course, offer the same alternatives as the traditional, white system products: simple assembly and an almost endless range of possible combinations. Platinum storage creates order in all areas of your home.

elfa® storage solutions keep everything neat and accessible in any room from your bath area, to your closet to your office. Thanks to elfa®, you will be able to locate exactly what you are looking for and spend your valuable time on more important things.

Customised system products.

White system products.

No more disarray. Solve the problem of storing all those toys and children's clothes. elfa® storage solutions enable you to build a system that can be moved and adjusted to allow for different heights and widths. Everything can then be concealed behind attractive sliding doors. Your children's rooms have never been so easy to keep tidy!

Wouldn't it be great to have all your clothes stored together in one place where you could see what you have at a glance? elfa®'s flexible and expandable storage system makes it easy to create the perfect wardrobe. Combine shelves, drawers and closet rods to make a practical unit where everything you want has its own proper place.

Platinum system products.

Everything starts with the easy-to-install top track.

... automatically creates straight angles.

The hang standard ...

elfa®'s unique track. User-friendliness is a key word for Elfa's storage solutions. All you need to screw into the wall is the track. Hang standards are then fitted into the track and brackets with shelves are hooked into the standards. Slide-out drawers and trouser hangers can be mounted into the brackets that are hooked into the hang standards. Also available are elfa® drawers. All that's left is to snap in a rod holder in the brackets and fit the closet rod. The result is a highly durable and stable system that is also easy to adjust and extend. Once you install your track and make sure it's perfectly level, everything else will automatically be straight. No fuss, no damage to the walls, and no time lost unnecessarily.

A storage solution that

Track

This is the only thing you need to screw into the wall.

Hang standard

Hangs in the track.

Bracket for elfa® ventilated shelf

Mounted in the hang standard.

elfa® ventilated shelf

Snaps into the brackets.

Pull-out drawer

Pull-out function for mesh or elfa® drawers.

Mesh drawer

Metal mesh pull-out drawer.

Trouser hanger

Pull-out hanger that is mounted on the brackets.

Shelf basket

Mounted on brackets in the hang standard.

Platinum system products.

Simple assembly is not the only advantage that elfa® storage offers. The system is also easy to adjust and rearrange later on. We are constantly developing new,

practical storage solutions. As your children grow, you can improve their storage space using some of our many accessories, such as shoe racks, tie/belt racks, special

grows with your needs.

elfa® drawer
Wire pull-out drawer.

Closet rod holder
Mounted in the brackets to keep the closet rod in place.

Closet rod
Available in different lengths and mounted using rod holders.

Side panel
The sides of the drawer system are available in different heights and depths.

Connector bar
A connector bar is used to hold the drawer system together as a tower. Also used when extending.

Shoe rack
Mounted in the hang standard.

Bottle/shoe shelf
Wire, pull-out storage.

hooks, accessory baskets, casters and much more. As time goes on, you'll discover you have created your own complete storage solution, which is personal and practi-

cal and has space for everything you want. And you can always extend, change and adjust your storage system to accommodate new needs.

A drawer system you can add to.

Using our connector bars, you can extend your drawer system quite simply.

Perhaps you start out with a simple drawer system when you first move to a place of your own. Space is probably limited and you have only a few items to store. Wire drawers are a practical and tidy way of organising clothes and accessories.

The drawer system is easy to take with you if you move to somewhere with more space — you can simply extend your storage upwards and side-ways.

Mount a track with brackets and hooks in shelves. Set up a closet rod, so you can hang up shirts, blouses and dresses.

There is no limit to the ways you can extend your drawer system. Please take a look at our price list too — there you'll find all twelve of our towers.

This tower accommodates up to 4 drawers.

Here the tower has been extended upwards to accommodate up to 7 drawers.

Here the tower has been extended upwards to accommodate up to 18 drawers.

A PLACE FOR EVERYTHING CO. UK

Drawer systems for every space and purpose.

"Sorry, platinum mesh is not available in UK at present."

Drawers – stable, stylish and smart. Our drawer system serves a major purpose in the home and fits in perfectly wherever you need good storage. The drawer storage is available in many different sizes, and in two colors white

and platinum. Drawers are now also available in a platinum mesh design that allows you to store smaller items in the drawers. The drawer has an elegant design and a practical handle.

Accessory basket. Basket that can be mounted on the sides of an elfa® drawer system or straight onto the wall.

Door & Wall rack for CDs. Store your entire CD collection using this great system that you mount into a hang standard or over your door.

Door & Wall rack. This new system allows you to create a flexible, customized storage center on a wall or door.

Set of castors. Put wheels on your storage, making it more versatile and easier to move.

Door & Wall rack for DVDs. Spend time watching films, not looking for them – keep them together on a wall or on a door.

EasyGlider™. A smart, pull-out basket with slides. Ideal for detergents and cleaning items under the sink.

Closet rod holder tower/tower. The closet rod is attached to the wire system products using a tower attachment. Also available as tower/wall.

Door & Wall rack for video tapes. Are your video tapes scattered about the room? Gather them together on the wall instead.
